Detail-oriented, dedicated to seamless user experiences, and adept at combining technical expertise with design flair. Quick learner passionate about front-end development

EXPERIENCE

- August 2023 - November 2023

Software Testing Intern

InMakes Info Tech Company /

Software Testing Intern at InMakes Info Tech Company: I worked as a Software Testing Intern at InMakes Info Tech Company for 6 months. During my time there, I had the opportunity to gain hands-on experience in software testing and develop skills in bug-tracking software. My responsibilities included:

- Executing test cases and writing reports
- Validating software performance
- Debugging software applications
- Using bug-tracking software
- Documenting software defects
- Verifying bug fixes

- June 2023 - June 2023

'How to CSS'

CodeKaro /

- Completed a one-week boot camp course in June on "How to CSS," acquiring the skills to build a professional resume website with HTML and CSS.
- Independently developed a resume website showcasing proficiency in HTML and CSS, demonstrating the ability to quickly apply newly acquired knowledge.
- Applied the skills gained from the course to build an e-commerce website using HTML and CSS.
